

COVID 19 Death Rates

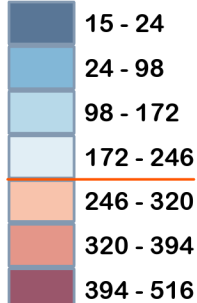

A Surge Across American States

This map represents the US COVID death rate per 100K people by individual state. Some inconsistencies exist due to reporting methods of each county and state. Alaska and Hawaii are not drawn to scale.

Death Rate By State

(per 100K people)

Low US Death Rate

AVG Death Rate

High US Death Rate

Date of Analysis:

January 28, 2022
